OPERATION MANUAL FOR 10-25x42 MONOCULAR

This waterproof monocular has a zoom capacity from 10x – 25x.
Diameter of objective: 42mm.

HOW TO USE THE MONOCULAR

1. Choose the zoom power rate according to the distance to the target by adjusting the zoom at the end of body. Then adjust focus wheel till the target can be seen clearly.
2. Fold down the eyecup for use with eye glasses and for higher zoom capacities. This will make the view more comfortable. Fold it down for use without eye glasses and for lower zoom rate.

HOW TO TAKE CARE OF YOUR MONOCULAR

1. When wiping the lenses, use the lens cloth that comes with the product, or another, soft and lintless cloth.
2. To remove any remaining stains, add one or two drops of isopropyl alcohol to the cloth.
3. Keep your monocular in a moisture-free area.

VERY IMPORTANT!!

Never attempt to clean your monocular internally or to take it apart.

Caution! Viewing the sun can cause permanent eye damage. Do neither view the sun with this monocular nor with the naked eye.
